

**Canadian Northern Prawn Trawl Fishery  
Shrimp Fishing Areas 5, 6, 7, 13, 14, 15**

**Marine Stewardship Council Certification – 2010 Surveillance Audit**

**Certification Body: Moody Marine Ltd  
Surveillance Audit**

MSC certification requires annual surveillance audits of all certified fisheries. These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, we shall be speaking with representatives of the fishery, fishery management and any other stakeholder who would like to provide information that may help in our audit. We will be in Dartmouth on 30<sup>th</sup> August and St John's on 31<sup>st</sup> August.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise us. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss
