

Eastern Canada Offshore Scallop Fishery Marine Stewardship Council Certification

Certification Body: Moody Marine Ltd

Stakeholder Consultation: Performance Indicators and Scoring Guideposts

We are now entering the next stage of the assessment of this fishery against the MSC *Principles and Criteria for Sustainable Fishing*.

The assessment team has now prepared draft Performance Indicators and Scoring Guideposts (PISGs) which we will use to evaluate this fishery against the MSC Principles and Criteria. The PISGs are accompanied with guidance on how they are applied.

We welcome any comments on the appropriateness of these Indicators and/or Guideposts in relation to this fishery. There is a 30 day consultation period from the date of this notice being posted on the MSC website. **Your comments are welcomed, in the first instance, by 5pm GMT 29 October 2008.** Comments should be sent to Paul Knapman at the address or email below.

Should you wish to obtain further information on the Marine Stewardship Council, this is available on their web site at <http://www.msc.org>. As a certification body, Moody Marine Ltd has dispute resolution procedures available should these prove necessary.
