

**Gulf of St. Lawrence Northern Shrimp Trawl Fisheries
Shrimp Fishing Areas 8, 9, 10, 12**

Certification Body: Intertek Moody Marine

Surveillance Audit Rescheduled

Please note: As a result of unforeseen circumstances, the surveillance audit initially planned to take place 4 October 2011 for this fishery, has been rescheduled for 4 November 2011.

Following certification of these fisheries, we are now in a process of annual surveillance audits.

These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

The surveillance audit will be conducted on-site by Steve Devitt and Jean-Claude Brêthes. During the surveillance audit, we shall be speaking with, among others, representatives of the fishery and fishery management organisations. The meetings will be conducted on 4 November 2010 at the DFO Maurice Lamontagne Institute in Mont Joli, Quebec.

Should you have any information on this fishery that you feel should be considered in the audit, please advise Moody Marine. We may be available to meet with stakeholders in person or via teleconference as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation).
