

MoodyMarine

certification for the marine environment

**American Albacore Fishing Association (AAFA)
Pacific Albacore Pole & Line and Troll/Jig Fishery
Marine Stewardship Council Certification – 2009 Surveillance Audit
Certification Body: Moody Marine Ltd**

Surveillance Audit

MSC certification requires annual surveillance audits of all certified fisheries. These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, we shall be speaking with representatives of the fishery, fishery management and any other stakeholder who would like to provide information that may help in our audit. We expect to carry out most meetings over the period 23rd and 24th June in San Diego.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise us. We have set 24th June a-side to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss
