certification for the marine environment

Advisory

Alaska Salmon Fisheries

Delay of Second Annual Surveillance Audit

Due to the anticipated transfer of the client from the Alaska Department of Fish and Game (ADF&G) to the Alaska Seafood Marketing Institute (ASMI) the second annual audit of the Alaska Salmon Fisheries has been delayed. Confirmation on the transfer is expected in early December 2009. As soon as possible thereafter the 2009 annual audit of the fishery will commence and will be completed before the end of April 2010.

This variation to the certification has the agreement of the MSC.

Any questions relating to this should be communicated to Paul Knapman, at the address below or on p.knapman@moodyint.com
