

At-Sea Processors Association

**Gulf of Alaska Pollock Fishery
Marine Stewardship Council Certification**

Certification Body: Moody Marine Ltd

**Announcement of Determination and Release of Final Report for Stakeholder
Consultation**

Following a 30 day period of comment on the Draft Report, the independent Governing Board of the certification body for the above fishery, Moody Marine Ltd, has reviewed the report of the assessment team, the reports of the Peer Review panel and all stakeholder comments.

The Determination reached by the certification body is that the Gulf of Alaska Pollock Fishery should be re-certified according to the MSC Principles and Criteria.

The Final Report relating to this assessment is now available on the MSC's website.

Please note that this is a determination, not a final certification result. This fishery is therefore not certified, nor is it able to use the MSC's logo on any products until the final consultation period has been concluded.

There is now a 15 working day period during which any party that disagrees with this determination may send a written statement of intent to lodge an objection. A description of the grounds for objection can be found in the MSC Objections Procedure, on the MSC's website: (www.msc.org/get-certified/fisheries/assessment/objections).

Any intent to file an Objection should first be addressed to Paul Knapman at Moody Marine Ltd, and copied to the MSC's Chief Executive (objections@msc.org), by **1700GMT on the 17th September 2010**.
