

**At-Sea Processors Association
Bering Sea and Aleutian Islands Pollock Fishery
Gulf of Alaska Pollock Fishery**

**MSC Certification
Certification Body: Moody Marine Ltd**

Surveillance Audit

Following certification of this fishery, we are now continuing the process of annual surveillance audits. These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

During the audit, we shall be speaking with representatives of the fishery, fishery management and environmental management bodies. We expect to carry out most meetings over the period **1 to 4 May 2007 in Seattle**.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise us. We may be available to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)
- d) where and when you would like to meet

Yours

Dr Andrew Hough
Lead Assessor
