

New Zealand Hoki Fishery MSC Certification

Certification Body: Intertek Moody Marine

Stakeholder Consultation

This fishery is now entering the 'information gathering' stage of the assessment against the MSC *Principles and Criteria for Sustainable Fishing* for the re certification of this fishery

A key purpose of this stage is to collect information on the fishery and speak to stakeholders with an interest in the fishery under assessment.

Should you have any further information on this fishery that you feel should be considered in the assessment, please advise us.

We will be undertaking a site visit in Wellington, New Zealand between the 13th and 20th November 2011. We will be available over this period to meet with stakeholders. If you would like to arrange a meeting, please advise us, by **1st November 2011** of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)
- d) where and when you would like to meet

We will then be in touch.

Should you wish to obtain further information on the Marine Stewardship Council, this is available on their web site at <http://www.msc.org>. As a certification body, Intertek Moody Marine has dispute resolution procedures available should these prove necessary.

Yours
