

SOUTH GEORGIA PATAGONIAN TOOTHFISH LONGLINE FISHERY MSC CERTIFICATION

Certification Body: Moody Marine Ltd

Surveillance Audit 2. 2011

Following certification of this fishery, we are now in a process of annual surveillance audits.

The certificate anniversary is 17 Sept 2011. The site visit is delayed slightly to coincide with an annual meeting held by the client in the UK on 27 Sept 2011. This timescale is in keeping with Surveillance audit 1.

These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment. Note that this fishery did not receive any conditions.

During the audit, we shall be speaking with, among others, representatives of the fishery and fishery management organisations. We expect to carry out most meetings on **26 September 2010 in Cambridge, UK.**

Should you have any information on this fishery that you feel should be considered in the audit, please advise Moody Marine. We may be available to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)
- d) where and when you would like to meet

Yours

Dr Jason Combes
Lead Assessor
