

MoodyMarine
certification for the marine environment

**Government of South Georgia and South Sandwich Islands
Patagonian Toothfish Longline Fishery**

MSC Re-Assessment

Certification Body: Moody Marine Ltd

Site Visit

This fishery is now entering the 'information gathering' stage of the assessment against the *MSC Principles and Criteria for Sustainable Fishing*. A key purpose of this stage is to collect information on the fishery and in particular to speak to representatives of the fishery, fishery management and environmental management bodies. We expect to carry out most meeting on **8 July 2008 in the UK**.

Should you have any information on this fishery that you feel should be considered in the assessment, please advise us. We will also be available over this period to meet with other stakeholders. If you would like to arrange a meeting, please advise us, as soon as possible, of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)

We will then be in touch.

Should you wish to obtain further information on the Marine Stewardship Council, this is available on their web site at <http://www.msc.org>. As a certification body, Moody Marine Ltd has dispute resolution procedures available should these prove necessary.

Yours

Dr Andrew Hough
Lead Assessor
