- | | |
|---|-----------------------------|
| 1. Dover sole trammel net fishery. | Surveillance audit 4 |
| 2. Mackerel and herring drift net fishery. | Surveillance audit 4 |
| 3. Dover sole trawl and gill net fishery. | Surveillance audit 1 |

MSC Certification

Certification Body: Moody Marine Ltd

Surveillance Audit

Following certification of this fishery, we are now in a process of annual surveillance audits.

These audits have two principal functions:

1. To review any changes in the management of the fishery, including regulations, key management or scientific staff or stock evaluation
2. To evaluate the progress of the fishery against any Conditions of Certification raised during the Main Assessment

The Assessment Team will consist of Jason Combes, Andrew Hough and John Nichols. During the audit, we shall be speaking with, among others, representatives of the fishery and fishery management organisations. We expect to carry out most meetings during **February or March 2011 in Hastings. The site visit will consist of the surveillance and reassessment audits for all 3 fisheries. The exact date of the site visit will be determined by the reassessment process and posted on the MSC website.**

Should you have any information on this fishery that you feel should be considered in the surveillance audits, please advise Moody Marine. We may be available to meet with stakeholders as appropriate. If you would like to arrange a meeting, please advise us of:

- a) your name and contact details
- b) your association with the fishery
- c) the issues you would like to discuss (in order for us to arrange appropriate representation)

Moody Marine will then respond offering a meeting.

Dr Jason Combes
Lead Assessor
