Hoki (*Macrurus novaezelandiae magellanicus*)

Industrial Bottom & Semi-pelagic Trawl Net Fishery in the Argentine Sea

Revision to the Assessment Team

Organización Internacional Agropecuaria S.A. (OIA) is currently undertaking the assessment of the Hoki Industrial Bottom & Semi-pelagic Trawl Net Fishery in the Argentine Sea against the Marine Stewardship Council Principles and Criteria for Sustainable Fishing.

According to the proximity of the release of the Final Report, the Assessment Team has been reinforced, and Dr. Bruno Prenski has been incorporated for Principles 1 and 2. As it's shown on his CV, Dr. Prenski is a well experienced scientist and consultant in the area of demersal fisheries, fishery ecology and stock assessments of this resource.

Therefore, the Assessment Team with knowledge of the stock assessment, ecosystem impacts and management framework applicable to this fishery, consists of:

- Dr. Bruno Prenski** – Principles 1 and 2
- Dr. Edgardo E. Di Giacomo** – Principles 1 and 2
- Dr. María R. Perier** – Principles 1 and 2
- Dr. Carolina V. Minte-Vera** – Principles 1 and 2
- Lic. Miguel A. Rey Sosa** – Principles 1 and 3
- Lic. Marcelo L. Morales Yokobori** – Principle 3
- Lic. Raúl Jorge Bridi** – Principle 3

Lead Assessor: **Ing. Pedro A. Landa**

No changes are intended to the assessment steps, and Dr. Bruno Prenski agrees with the Assessment Tree and the Public Comment Draft Report announced before.

Full Team Member CVs are available. Your comments on this issue are welcomed until January 26th, 2012. Additional inquires about the certification process may be sent to:
