Notification of change to Timeline for the SARPC toothfish fishery

MacAlister Elliott and Partners Ltd. (MEP) is undertaking the full MSC certification assessment process for the following fishery:

Fishery for toothfish (*Dissostichus eleginoides*) in the TAAF EEZ (around the Kerguelen and Crozet islands) conducted by members of SARPC.

The revised timeline previously submitted by MEP indicated that the Public Comment Draft Report for this fishery would be published by October 2011. However, due to ongoing stock assessment modelling and data collection the scoring of this fishery has not yet been finalised. The publication of the PCDR has therefore been postponed to April 2012, with the announcement of the fishery's peer reviewers due in January 2012.

A revised timeline has hereby been submitted.
