

List of fisheries in the In-Transition to MSC (ITM) program pilot v1.0

This replaces the list published on 22 January 2024.

Disclaimer: ITM fisheries that are adhering to v2.0 of the ITM requirements have their full profile available on the [MSC Track a Fishery website](#) and are not listed below. ITM fisheries on the Track a Fishery website can be found by filtering the Unit of Certification status and selecting ‘In-Transition to MSC’.

This list specifies fisheries adhering to v1.0 of the ITM requirements and is for information purposes only. ITM fisheries are not certified against the MSC fisheries standard but are implementing time-bound, third-party verified improvement action plans. This list will be updated periodically.

No.	Fishery name	Date of entry	Benchmarking and Tracking (BMT) index (pre-assessment)	Expected year of completion
