Muchos animales marinos habitan los mares y los océanos de todo el mundo. Las merluzas, los delfines, las tortugas, los cangrejos, los pulpos, las medusas, los bacalaos, los tiburones y muchos, muchos más… Para que ellos puedan vivir y reproducirse es importante pescar bien.

Cuando ves el sello azul en un pescado, sabes que los pescadores han tenido cuidado y han dejado suficientes peces en el mar para que no se agoten.

PEQUE MARES PARA SIEMPRE

MARES PARA SIEMPRE

COLOREA LOS ANIMALES MARINOS

MSC es una organización internacional, independiente y sin ánimo de lucro que tiene como visión un océano lleno de peces para siempre. A través de nuestro programa de certificación, premiamos y reconocemos los pescadores que practican una pesca sostenible a través del sello azul de MSC. Para más información, consulta nuestra web y redes sociales.
