

ASPECTS OF SUSTAINABILITY ACTIVITY

HOW TO USE?

See [8.2 Teacher Outline](#) for activities and slide set [8.2 Kaitiakitanga](#) for further context

NOTES: Suitable for higher level learners (Levels 7 & 8) and adapted from [TKI](#)

VALUE CARD STATEMENTS

Agree

Disagree

It is important for us to understand the ocean, what happens there and how it is changing

The sea is so big it will not be affected by what I do

Marine life can be affected if we take too many of one species

We have a responsibility to fish sustainably so there will be fish left for future generations

The deep ocean is a long way from me. What happens there doesn't matter to me

It is my right to go fishing and take what I want no matter what

Kaitiakitanga means taking from the sea and giving back to the sea

Kaitiakitanga means I can take kaimoana however I want!
